

SEDS2021

5th Workshop on the

Safety of the Extended Dry Storage of Spent Nuclear Fuel

When: June 9th – 10th, 2021

Where: online, hosted by GRS Garching and Berlin, Germany

What: Focused online conference on advances in the field of safety aspects of the extended dry storage of spent nuclear fuel

Registration: https://www.grs.de/registration_seds_snf

Contact: Florian Rowold Florian.Rowold@grs.de

Klemens Hummelsheim Klemens.Hummelsheim@grs.de

GRS will organize the

*5th Workshop on the Safety of the Extended Dry Storage of Spent
Nuclear Fuel*

as an online event. The main goal of the workshop is to bring experts together and present and discuss recent developments and current topics in the field of the extended dry storage of SNF.

Due to the ongoing situation with SARS-Cov2 and Covid-19, this year's workshop will once again be an online video conference. Registered participants will receive a link to a *Skype for Business* or *WebEx* conference.

Presentations

We invite all participants to give a short overview of their current research activities, results, open questions or future projects. The duration of the talks should be around 20 minutes. Talks and any additional materials (e.g. abstracts, graphics) should be sent to the organizers and will be uploaded to a non-permanent and password-protected cloud space.

To foster the scientific discussions with the online concept, we will make the cloud space available to all participants 7 days prior to the online workshop. We invite everyone to get in contact with the authors and discuss the contributions already prior to the online meeting.

Agenda

The workshop will be held as an online event. Currently we plan sessions of 4 hours on 2 days, which are likely to start between 1 pm and 2 pm CEST. Details depend on the submitted contributions and will be communicated as soon as possible.

Proceedings

We will provide a citable proceeding of all contributions. Therefore, we kindly ask all presenters to provide a compact of their work in advance via email. The compact should comprise at least 1500 signs and include important formulas, figures, diagrams and references.

Registration:

Participants are asked to fill out and submit the online registration form at https://www.grs.de/registration_seds_snf as soon as possible.

Registration to the online workshop is mandatory and free of charge. Note that only registered participants will have access to workshop and presentation materials.

Important dates and deadlines:

January: Opening of registration

May 15th: Deadline for submission of title and compacts

June 2nd: Deadline for submission of presentation materials
